RE-FUSE COLLECTION

E.K. ANARCHISTS NEWS SHEET

May/June 1984

The Re-Fuse Collection was published by several anarchists living in East Kilbride. As yet an anarchist group doesn't exist in East Kilbride, the main obstacle to the formation of a group being that we can't think of anywhere to meet (we can't afford to rent a hall). However we are keen to get a group started as we know there are a considerable number of anarchists living in East Kilbride. **WE MUST UNITE TO WIN.** Any ideas, articles, news, support (hint, hint) is very welcome. Please write to:

SIGN OF THE TIMES

Is it my imagination or are there more policemen about nowadays?

East Kilbride, like a certain place called Nottingham (Ravenscraig) is seeing an increase in the body which supposedly maintains law and order but in fact merely oppresses and victimises those who disobey the social and political guidelines set down by the government.

This growth is just another indication that we are losing any freedom or rights we ever had and it must be stopped before the legal thugs get completely out of control.

DEMOCRATIC DOGMATISM

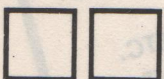

WELL now that another District farce is over we can all relax again because the Labour Party got more votes than the Tories. **BIG DEAL!** This result will not change anything unemployment will not get better and neither will anything else. If we persist with this type of election the situation will steadily get worse as the Tories steadily beat down any opposition to them. Labour doesn't have the courage or inclination to take effective action to help anybody (that's if they actually want to, which I doubt).

The only real solution is for everybody to tell these people and their rich bureaucratic friends where to go so that the people can run their own lives and jobs by means of collectives/co-ops. Not only businesses could be run this way but also the social services (housing/education/fire etc) and this would render the Council even more unnecessary than it already is. One good sign is that the majority of people abstained from this so-called democratic procedure — sense at last.

LONG LIVE ANARCHY!

SUPPORT THE MINERS !

REST IN PEACE PARK

RECENTLY Calderpark Country Park has received considerable publicity with its Childrens Zoo and 'Peace Park'. What is absent from the photos of children feeding the animals or exploring the woods is the sinister concrete structure and masts screened behind trees which overlook the Park. This is East Kilbride's Nuclear Bunker.

When the bomb drops the councillors who created the Peace Park will bolt along with senior army and police officers to there. After the holocaust they will control the remnants of the population by means of the gun. And the 80,000 people of East Kilbride? They will be buried (used as fertiliser), under the present playing fields of the 'Peace Park'. Think about it when you and the kiddies are at the country fair or exploring the delights of Calderglen.

ROCKWELL AND THE BOMB

RECENTLY the American firm of Rockwell International moved to East Kilbride's Kelvin Industrial Estate. While services like the NHS are starved of state finance the SDA and local councillors bent over backwards to help Rockwell build its ultra-modern factories.

But the compnents produced are of no benefit to East Kilbride or Scotland for Rockwell is just one of the many firms making millions producing parts for Nuclear Weapons such as Cruise and Trident.

Hopefully in the future opposition will be organised to highlight the sickening way in which the Arms Industry saps the peoples resources while a few businessmen and bureaucrats get rich.

EASTER YAWN

AT EASTER CND managed to mobilise 2,000 people in a demo at Holy Loch and a lot of fucking good it did them. As usual they kept strictly within the law and obeyed the orders of the CND junta. It is time the CND rank and file learned that the government's conscience cannot be awakened by peaceful demos such as this. With 2,000 people involved it would have been possible to invade the base and demobilise it with no harm to anyone.

The way to obtain victory is to go outside of the government's law (it isn't ours) and by making them so shit-scared that they finally realise that the people aren't going to take this crap. Of course this can't be achieved when the masses are led by cowardly careerists such as Chairman Ruddock or our Lord God Kent (a prick of conscience).

The first revolution must take place within CND itself so that effective action can take place without useless leaders as obstacles.

☺
BUNKER
BARNEY!
☺
